Program and comments:

Speaker called in sick today so we had a few members volunteer to describe what they do:

Craig is retired from Reinsurance and is now working part-time consulting and working with investment bankers. He also spends time studying the changing economy and trends.

Ray has been in the employee benefits business since 1994 and works with companies from 2-200 employees. He has been dealing with Health insurance issues for over 20 years.

Bud has a new flooring installation business in Wilton—doing all types of flooring—tile, wood and carpet. Fashion Floors is a new business for him and town.

Victor prepares tax returns for both individuals and businesses and often represents them work with the IRS and disputes. He feels that people want to do the right thing and will if they get some assistance.
