### Program: Michael Cadden – Living Abroad

So your boss calls you in and announces that as of June 1 you have been transferred from the company's plush Stamford office to an outpost in Kuala Lumpur, Malaysia. What are you gonna do? Well, you could call Michael Cadden. Founded in 1987, Living Abroad ([www.livingabroad.com](http://www.livingabroad.com)) is the corporate relocation world's premier provider of country specific information and innovative tools designed for business travelers assigned abroad. Living Abroad Managing Director, Michael Cadden, told the tale of how a small Westport based pre-internet publisher of travel assistance information to business travelers became transformed by the internet to assist workers in today's globalized economy.
