Program

Dick Ziegler of the Community Emergency Response Team (CERT) thanked Rotary for our donation and spoke about some of its uses. He said members of the team receive 20 hours of training in CPR, first aid, AED, and other skills. Currently there are 56 volunteers and they have been called out 8 times since the group was formed, primarily to aid in traffic control. Their website is wiltoncert.org and they welcome those interested to sign up for training twice a year.

See on June 2nd at the Silvermine Kathy
