Program

Carol Stewart, PhD (www.LookingForScholarships.com) gave a very interesting talk on obtaining scholarships to help make higher education more affordable. Professor Stewart said the money is out there but obtaining it requires more effort than applying for student loans. According to Carol the average student loan debt at graduation for undergraduate degrees is \$ 26,000. An excellent resource for researching scholarships is the "Ultimate Scholarship Book 2011" (by: Gen Tanabe) which is available at the Wilton Library.
