Program

Paul Milositz, Chief of the Wilton Fire Department for the past 3 years, did a superb job of presenting the background and mission of the Wilton FD, particularly after the projector went haywire and he could not use his laptop to show us the slides! Paul was cool under the pressure and handled himself like a true professional. We all appreciate everything our emergency services do to keep us safe, and are very proud of the Fire Department which strives to be the best of the best. See you next Friday at the Silvermine..... Bill
