Future Programs

-October 5, Ed Ashway will show us how to navigate the Rotary web sites.

Today's Program

Wilton Rotary Club Charter Member (1981) Dr. Keith Overland discussed the current healthcare system and why it needs to be reformed. As current President of The American Chiropractic Association, Dr. Overland is quite active travelling throughout the United States trying to ensure that chiropractic patients are being treated fairly in the healthcare system. He asserts that chiropractic services are being treated as an "add-on" rather than a vital medical procedure.

Keith also mentioned how most of the public, including the 50 million Americans without health insurance, receives its information regarding the healthcare system in news sound-bites and probably does not get the total picture. Keith mentioned the good points as well as the negatives regarding healthcare reform and we were fortunate to have him share his insights on a very complex issue.

Keith will continue in his position with the ACA until next September. It was good to hear him mention that his three sons are each doing well in their careers.

See you Friday at Marly's
