Program

Dr Wendy Coren, and equine chiropractor was our speaker. She spoke about the relationship of the rider to the horse and that is the rider is out of balance, then so it the horse. Wendy talked about how she got interested in

helping the horses and that she lectures and teaches around the country. She is a people chiropractor who got involved in the healing of the horses—mostly friends and people who contact her, not much with race horses---even though they need help. Would have been fun to see her in action, but Frank didn't really want to have the horse in the dining room.

See you next Friday at the SilverminePam
