November 15, 2019

Vol. 39, Issue 17

Editor: Philip Sharlach

Today's attendees: Boucher, Burnham, Glass, Goldman, Hafter, Johnson, Lavin, Russo, Sharlach, Tai-Lauria and Smith. Prospective member Phil Lauria; guest Father Reggie Norman and our speakers from the Elder Support Services/Alzheimer's Association Shannon Jordan and Robin Roscillo. There no visiting Rotarians this week.

Today's loser was Chris Lavin. The pot is now \$695.00, just enough to pique the interest of the IRS. While unspoken, the thought is to place a blue tooth tracking ankle bracelet on Bud, have him surrender his passport, and to notify all international carriers. There are 12 cards left in the deck, Again, thanks Chris.

A reminder, we have two community service opportunities.

The first involves a physically disabled gentleman who lives in Wilton Commons who is moving from there to Sunrise. He needs help packing his possessions. Club members decided that a group could get together on **Monday the 18th at 5pm**, after the work day, to provide assistance. We need one more member to assist.

The second opportunity involves a homeowner in North Wilton who lives across the street from the Nissan dealership. She needs help with a very significant amount of yard work. Please speak with Pat if you can volunteer an hour or three. Date to be determined.

The atlases for Cider Mill were labeled at Paul's Prosperous Printing this past Wednesday. Club volunteers were Bill G., Pat, Carol, Susan, Pam, Phil and Bill Meehan, who showed up just in time cocktails. Wouldn't you know it?

Our presenters today were volunteers from the Fairfield County Alzheimer's Association. The important takeaway is that there are 10 recognized symptoms prior to the full onset of Alzheimer's. The disease can occur at any age and within any demographic. The organization is seeking volunteers to participate in programs aimed at PREVENTING and/or delaying the onset of Alzheimer's. I am a volunteer in an 18 month program through the Yale University, School of Medicine, Cognitive Research Center in New Haven. Do I have Alzheimer's? No, but if it can be delayed I feel it is in the best interest of my family.

NEXT MEETING: – Lunch Meeting, Friday, November 22, 12:15 at ROLLING HILLS COUNTRY CLUB
