Bob Creighton CEO of MentorShop.com gave an entertaining snapshot of his company which is described on the website as 'Creating gateways to Excellence that connect clients with the networks, partnerships, expertise and knowledge that will shape their futures. Bob discussed 'That Special Relationship' between the US and UK and how the US undervalues that relationship. A Scot living in the States since 1985 Bob also related the Scots perception is that they 'know' America is perhaps only outdone by Americans misperception of Scots and Scotland.
